[**h-index:** 10 | **i10-index:** 10 | **Citations:** 698]

RESEARCH INTERESTS

Human–AI Communication; AI Ethics & Governance; Moral Judgment of AI; Trust Calibration and Repair in AI; Trustworthy and Socially Responsible AI

FEATURED PAPERS

- **Taenyun Kim**, Chung Heon Lee, Yanqin Wu, Jungwoo Jang, Huisung Kwon, Hayeon Song, Jae-gil Lee, Namkee Park, and Kwan M. Lee. Virtual influencer's apologies?: The different perceptions of moral violation and apology between virtual and human influencers in brand endorsements. *Media Psychology*, 2026
  - Using mind perception and the theory of dyadic morality, this study shows that although virtual influencers are seen as having lower moral agency than human influencers, they are attributed comparable blame after a scandal and can sometimes repair trust more effectively through apology.
- **Taenyun Kim** and Wei Peng. Do we want AI judges? the acceptance of AI judges' judicial decision-making on moral foundations. *AI & SOCIETY*, 40(5):3683–3696, 2025
  - This study examines public acceptance of AI versus human judges across moral foundations and finds that AI judges are generally seen as riskier and less acceptable, while receiving relatively greater approval in fairness-related cases. It also shows that racial/ethnic minorities show greater social approval of AI than the majority group.
- **Taenyun Kim**, Yeosol Song, Doha Kim, and Hayeon Song. Too much is as bad as too little: The impact of implementing multiple social interaction features on trust and acceptance of automated vehicle agents. *International Journal of Human-Computer Interaction*, pages 1–16, March 2025
  - This study shows that a single anthropomorphic cue can increase trust in an automated vehicle agent, whereas combining multiple cues can trigger an "uncanny valley of mind," reducing trust, perceived usefulness, and intention to use.
- **Taenyun Kim**, Maria D Molina, Minjin Rheu, Emily S Zhan, and Wei Peng. One AI does not fit all: A cluster analysis of the laypeople's perception of AI roles. In *Proceedings of the 2023 CHI Conference on Human Factors in Computing Systems*, pages 1–20, 2023
  - This study identifies two core dimensions of AI perception—human involvement and AI autonomy—and four AI role clusters, showing that laypeople evaluate AI roles differently rather than treating AI as a single undifferentiated category.
- **Taenyun Kim** and Hayeon Song. How should intelligent agents apologize to restore trust? interaction effects between anthropomorphism and apology attribution on trust repair. *Telematics and Informatics*, 61:101595, 2021
  - This study shows that effective trust repair depends on the match between an agent's anthropomorphic cue and the type of apology attribution offered after an error.

EDUCATION

Michigan State University, MI, USA *August 2022 - August 2026*
Ph.D. in Information and Media Program GPA: 4.0/4.0
(Cognitive Science Specialization)
- Advisor: Dr. David R. Ewoldsen
- Dissertation: Rethinking Moral Norms in the Age of Artificial Intelligence: Mouse-Tracking Evidence of Attenuated Moral Expectations and Greater Hesitation in Judgments of Artificial Agents' Virtuous Behavior

Sungkyunkwan University (SKKU), Seoul, South Korea *September 2019 - August 2021*
M.Sc. in Interaction Science (Human-AI Interaction Major) GPA: 4.5/4.5
- Advisor: Dr. Hayeon Song
- Thesis: The Effect of Anthropomorphism, Implicit Theory, and Apology Attribution on the Trust Repair of Artificial Intelligent Agent

Sungkyunkwan University (SKKU), Seoul, South Korea *March 2012 - August 2019*
B.A. in Psychology GPA: 3.99/4.5
B.S. in Interdisciplinary Informatics

RESEARCH EXPERIENCE

Postdoctoral Researcher *October 2026 - September 2027*
Max Planck Institute for Intelligent Systems, Stuttgart, Germany

Research Assistant *September 2022 - August 2026*
SCAMP Lab, Michigan State University, USA

Research Assistant *September 2023 - August 2026*
MLG Lab, Michigan State University, USA
- Lab Coordinator (April 2025 - Present)

Summer Research Intern *June 2025 - August 2025*
The Social and Responsible AI Team, Nokia Bell Labs, Cambridge, UK
- Advisor: Dr. Daniele Quercia; Dr. Edyta Bogucka
- Selected as 1 of 5 candidates from a competitive pool of 187 applicants (acceptance rate: 2.7%)

Research Assistant *September 2023 - January 2025*
NOMLab, Michigan State University, USA

Research Assistant *September 2022 - December 2023*
SPARTIE Lab, Michigan State University, USA

Researcher *September 2021 - August 2022*
Interaction Science Research Center, SKKU, South Korea

Research Assistant *September 2019 - August 2021*
HAI-Lab (P.I.: Dr. Hayeon Song), Department of Interaction Science, SKKU, South Korea

Member *August 2017 - August 2019*
Explorers in Social Psychology (ESP), Undergraduate Students' Social Psychology Academic Society (Advisor: Dr. Hoon-seok Choi), Department of Psychology, SKKU, South Korea

Undergraduate Research Assistant *August 2017 - November 2018*
COCOAN LAB (P.I.: Dr. Chung-wan Woo), CNIR (Center for Neuroscience Imaging Research) at SKKU, South Korea

MENTORSHIP EXPERIENCE

Undergraduate Research Mentor

V Kumar, Michigan State University, USA *April 2025 - March 2026*
De-anthropomorphization of AI for Adequate Trust Calibration

TEACHING EXPERIENCE

Instructor
Department of Media and Information, Michigan State University *Summer 2026*

[MI355] Media and Information Research

Co-Instructor

Department of Interaction Science, SKKU *Spring 2020 - Spring 2021*

[HAI5012] Research Methods and Intro to Statistics, Spring 2021.
Taught students how to use R in data analysis

[WIS5073] Introduction to Research Methods, Spring 2020.
Taught students how to use R in data analysis

Guest Lecturer

Department of Media and Information, Michigan State University

[MI201] Introduction to Information Science
AI & Future Challenges, Spring 2026

[MI101] Understanding Media and Information
History of Computer and New Social Agent [PPT], Spring 2025
Social Media and Online Communication [PPT], Spring 2025
What is artificial intelligence? [PPT], Spring 2023

[MI480] Information and Communication Technologies and Development
Technology's Role in Development [PPT], Fall 2024

Teaching Assistant
Department of Media and Information, Michigan State University *Fall 2022 - August 2026*

[M201] Introduction to Information Science, Spring 2026
Gave a guest lecture about AI and the future, as well as supported the instructor for the course with 100+ students and mentored students

[MI480] Information and Communication Technologies and Development, Fall 2024 *Designed and led interactive, design thinking-based activities, including persona development, guided students in tackling project challenges, and provided grading and feedback to enhance learning in ICT4D contexts.*

[MI355] Media and Information Research, Fall 2024; Fall 2025
Supported instructor and mentored students

[MI101] Understanding Media and Information, Fall 2022; Spring 2023; Spring 2024; Spring 2025
Gave multiple guest lectures about AI and new media as well as supported instructor for the course with 200+ students and mentored students

[MI302] Networks, Markets and Society, Fall 2023
Supported instructor and mentored students

[MI305] Media and Information Policy, Fall 2023
Supported instructor and mentored students

Department of Interaction Science, SKKU *Spring 2020 - Spring 2021*

[HAI5012] Research Methods and Intro to Statistics, Spring 2021.
Taught students how to use R in data analysis

[AAI3017] Human-Artificial Intelligence Interaction, Fall 2020.
Supported instructor and mentored students

[CHS7003] Artificial Intelligence Application, Summer 2020.
Helped students to code basic AI application using Python.

[WIS5073] Introduction to Research Methods, Spring 2020.
Taught students how to use R in data analysis

HONORS & AWARDS

PhD Student Educator Award *April 2026*
Awarded by the Department of Media and Information, MSU.

ICA 2026 "Rock Star" Reviewer Award *January 2026*
Designated as the single top reviewer for the Human-Machine Communication interest group—one of only 34 reviewers selected association-wide—for exceptional quality and volume of peer reviews for the 76th Annual ICA Conference.

Outstanding Doctoral Student Savant Award *April 2025*
Awarded by the Department of Media and Information, MSU.

Outstanding Doctoral Student Researcher Award *April 2024*
Awarded by the Department of Media and Information, MSU.

1st Prize in Outstanding Research Award *August 2021*
Awarded by the Department of Interaction Science, SKKU.

1st Prize in Undergraduate Research Presentation Contest *November 2018*
Awarded by the Department of Psychology, SKKU.
Research Title: "The Effect of Modifiability and Argument Quality in a Confrontation Message on Gender-Stereotypic Responses"

2nd Prize in Undergraduate Research Presentation Contest *November 2017*
Awarded by the SKKU, Department of Psychology.
Research Title: "The Effect of Image in the Credibility of Posts on Social Media"

SCHOLARSHIP

Graduate School Dissertation Completion Fellowship ($4,710.00) *Spring 2026*
Granted by the Graduate School, MSU.
Dissertation Title: "Comparing Moral Norm Judgments of Human and Artificial Agents: A Mouse-Tracking Study of Response Time, Trajectory Deviation, and Conflict"

Information and Media Summer Research Fellowship ($2,684.89) *Summer 2025*
Granted by the Department of Media and Information, MSU.
Proposal Title: "Explication and Scale Development of Implicit Theory of AI"

Information and Media Summer Research Fellowship ($2,500) *Summer 2024*
Granted by the Department of Media and Information, MSU.
Proposal Title: "Testing the Assumptions of Machine Heuristics"

Larry Estlack Memorial Scholarship, Information Studies and Media ($1,000) *April 2024*
Granted by the Department of Media and Information, MSU.

Information and Media Summer Research Fellowship ($3,989.90) *Summer 2023*
Granted by the Department of Media and Information, MSU.
Proposal Title: "Moral Foundations of AI Judicial Decision-Making"

Thomas A. Muth, Sr. Endowed Fund in Telecommunication, Information Studies and Media ($500) *April 2023*
Granted by the Department of Media and Information, MSU.

SKKU Research Matters 2021 Scholarship *November 2021*
Granted by the SKKU.
Conferred to the winners of SKKU Research Matters 2021, a competitive research presentation contest.
Research Title: "How Should Intelligent Agent Apologize to Repair Trust?"

Brain Korea 21 Scholarship *August 2019 - August 2021*
Research Scholarship (10Z20130000013) granted by Ministry of Education(MOE, Korea) and National Research Foundation of Korea (NRF).
Interaction Science for Developing Global Human-Informatics leaders focusing on UI/UX

Graduate Merit Scholarship *Fall 2019 - Spring 2021*
Granted by the Department of Interaction Science, SKKU.

SimSan Scholarship *Spring 2020 - Spring 2021*
Granted by the Department of Interaction Science, SKKU.

Student Success Scholarship *Spring 2019*
Granted by the SKKU.

Academic Excellence Scholarship *Fall 2018*
Granted by Department of Psychology, SKKU for outstanding academic achievement. (GPA 4.5/4.5)

Academic Excellence Scholarship *Spring 2013*
Granted by Department of Psychology, SKKU for outstanding academic achievement. (GPA 4.38/4.5)

COMMUNITY SERVICES

Vice President *October 2024 - Present*
Association for Doctoral Students in Information and Media

President *September 2024 - August 2025*
Association for Korean Graduate Students in Communication Arts and Sciences

Student Representative *October 2023 - September 2024*
Department of Media and Information, Association for Doctoral Students in Information and Media
